

THERMODERM®

**Contains Essential Oils
and Natural Plant Extracts**

THERMODERM® WARMING products provide fast acting, deep penetrating pain relieving warmth for muscle sprains, strains, sore stiff muscles, bursitis and tendonitis, arthritis and joint pain. The secret of this pain reliever is its deep penetrating, long lasting gentle warmth, and other Natural ingredients such as

Aloe Barbadensis: Antioxidant and anti-inflammatory

ARNICA: To reduce bruising and inflammation

BOSWELLA: A natural COX-2 Enzyme Inhibitor (Reduces inflammation and has anti-arthritic actions)

Green Tea Extract: Camellia Sinensis Anti-inflammatory, anti-irritant, antibacterial and antioxidant containing an impressive amount of vitamin E, C and B.

ILEX: Releases muscle spasm and reduces inflammation

MSM: A naturally occurring essential nutrient found in healthy tissue and joints (Increases topical membrane penetration, is an anti-inflammatory and local analgesia.)

Tocopheryl Acetate: Vitamin E, antioxidant with moisturizing qualities, slows the degeneration of cells, and promotes cellular renewal

Yucca Aloifolia: Provides relief for arthritis, breaks up inorganic mineral obstructions and deposits and reduces inflammation of the joints, testing has demonstrated that saponins found in Yucca are a hormonal material, a steroid, with properties similar to the adrenal hormone, cortisone.

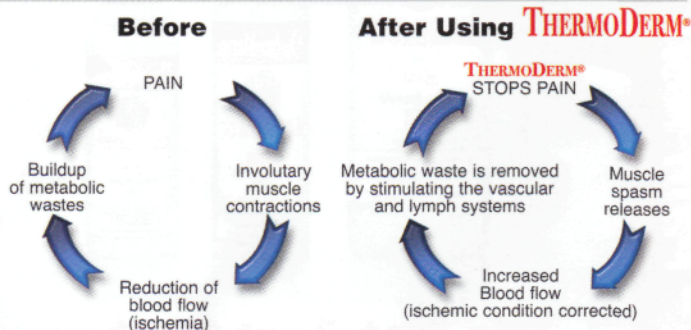

THERMODERM® LOTION can be used in place of massage creams and oils for Myofascial Release, Trigger Point Therapy, Transverse Friction and Deep Tissue.

All of the Therapeutic Benefits of **CRYODERM®** in a Warming LOTION & ROLL-ON.

See bottle label for complete uses, warnings and directions.
